COMPANY PROFILE

MOLPLANT CONSTRUCTION Ltd

Competent and Reliable.

Company Introduction

Established in 1965 by its current Chairman, MCL has grown from a company specialising in road surfacing to a well-established Building and Civil Engineering contractor working throughout Scotland and the North of England.

MCL considers the Health & Safety of its employees, customers and members of the public to be of paramount importance, reinforcing this through accreditation to CHAS, Constructionline, Achilles and SAFE Contractors.

MCL also believes in sustainability and protection of the Environment and is developing systems in line with the ISO 14001 standard. This accreditation is due in the near future.

MCL have a very low staff turnover, rewarding the valued contribution of our workforce.

We operate our own modern plant and equipment, which is maintained, tested and certified in our well-equipped workshop facility at our Head Office.

Management Strategy

Our management strategy focuses on the formation of a competent team dedicated to plan and manage each project. The responsibilities of each member of staff contributing to the project is clearly defined in the project plan which is communicated to all concerned

Each project is planned and programmed in significant detail.

The Project Programme we include a detailed construction and procurement schedule.

MOLPLANT CONSTRUCTION Ltd

Competent and Reliable.

Health, Safety & Environmental

Our management system is controlled on each construction site in accordance with a project specific Site Safety Management Register.

The Construction Phase Plan for each site includes an environmental risk assessment which is utilised by the site team to identify key local sensitivities and highlights the need to contact neighbours and adjacent business of the proposed construction works.

MCL place a very high priority on the safety of it's employees and members of the public.

All work areas will be securely fenced off using a secure fencing system and maintained throughout the currency of the contract.

All access routes into the site used by the work force and design team will be temporarily surfaced and fenced at all times.

We employ widely experienced operatives who undergo regular training and certification.

The majority of our workforce hold CSCS cards or CPCS and are undertaking NVQ Level 2 assessment at present.

MCL use a small selection of sub-contractors with established performance and safety records.

Sub-contractors are assessed and monitored to ensure compliance.

Safe working conditions and adequate welfare facilities are always provided

Protection of customers and the public by ensuring the site is safely cordoned

Workforce are consulted through MCL's H & S committee and regular toolbox talks.

MOLPLANT CONSTRUCTION Ltd

Competent and Reliable.

Health & Safety Record

MCL is accredited to CHAS, is a member of Constructionline ref 65099 and is Achilles ref 701712 approved.

In the past three years our accident record is as follows :-

- a) Reportable – over 3 day 2 No
- b) Non-reportable 4 No

MCL is proud of its H & S record and considers the Health, Safety and Welfare of it's employees as the number one priority.
